

FOGGY MORNINGS

As a soft light shines on the horizon
the sky is grey, hazy, and dull.

Even though I can't see the sun today,
yet I know it is there.

The fog has covered the sun brightness,
yet I know the sun is still there shining brightly.

Many times in my life trials and problems
have blocked the view of the Son, yet He is still there!

His word says tells, He will never leave me or forsake me.
His word also says NOTHING can separate me from His love.

His power is not diminished because I can't see Him
He is the same yesterday, today and forever.

Praise the Lord for His faithfulness.
Despite the fact of that at times

I may not see Him working,
I am confident, that He is at work.

Foggy mornings remind me
that God is at work in my life
they show me show His Faithfulness.
